

## Change log for ASCII Video Terminal firmware Ver 1.3

- Added escape codes to turn the cursor off and on.  
ESC [?25l Will turn the cursor off (ie, make invisible)  
ESC [?25h Will turn the cursor on (ie, show the cursor)

## Change log for ASCII Video Terminal firmware Ver 1.2

- Corrected a bug which corrupted USB data when in composite PAL mode.
- Corrected a bug which restricted composite (both PAL and NTSC) to a line width of 34 characters.

Note: V1.1 was the first release although the file was labelled V1.0
